

# Iryna Loushkina

Junior Fronted Developer

## 👤 Profile

7+ years experience in many different projects, starting from sales/account management, implementation online booking tools to managing people.

Now, I am a self-taught junior frontend developer. I have been studying how to create responsive websites and environments connecting to that process.

My technology stack so far is HTML5, CSS3, SASS (SCSS syntax), basics of JavaScript (ES6), basics of PHP, mySQL, Git / GitHub, npm, Webpack, and the BEM methodology.

You are more than welcome to visit my portfolio
